

Dear FCC,

It came to my attention that FCC is making changes that may impact the FM station that I listen to. K-LOVE is a station that serves a very important function in my community. The positive music and encouraging comments/talks are not only helpful to me but they encourage many others as well. It will be detrimental to the community if K-Love were to be displaced by an LPFM broadcaster providing other programming. There are only a handful of stations that truly meet the needs of so many. While I cannot recommend other radio stations to my friends and children due to the content but I can confidently recommend K-Love to all ages. Please do not make changes that will negatively impact K-Love and, more importantly, its many listeners.

Regards,
Mi Hi Paek
